Robert T. Brunson  
Fire Chief, Socorro Fire Department  
200 Fisher Ave.  
P.O. Drawer K  
Socorro, NM. 87801

Dear Mr. Brunson:

The NMED Hazardous and Radioactive Materials Bureau (HRMB) has received the information regarding the bioremediation products Micro Blaze and Micro Blaze Out.

Upon review of the information received, NMED has determined Micro Blaze and Micro Blaze Out to be acceptable and safe bioremediation products for the removal of hydrocarbon spills on land or water (including the removal of hydrocarbons from highways, parking lots, and gas stations) throughout the state in all programs subject to HRMB's jurisdiction. This also includes Micro Blaze Out use as a dispersant in the case of petroleum hydrocarbon fires.

Thank you for referring this concern to the NMED for our review. If you have any questions, please contact Mr. Frank Sanchez at 827-4308.

Sincerely,

  
Frank Sanchez  
RCRA Inspector
