Mr. Charles S. Cox
Verde Environmental, Inc.
7309 Schneider
Houston, TX 77093

Dear Mr. Cox:

This is in reply to your request for compound authorization received on September 04, 1991 for your product Micro-Blaze.

This product is acceptable for use in sewage and/or drain lines of official establishments operating under the Federal meat, poultry, shell egg grading, and egg products inspection programs. This laboratory must be provided with records of salmonellae analysis for each new lot of this enzymatic cleaner prepared for use in such establishments. Analysis must be conducted by a qualified microbiological laboratory.

If the above condition is not fulfilled, or, if future analysis shows the presence of salmonellae and/or other pathogenic microorganisms, authorization will be cancelled.

Acceptance of compounds by this Department is in no way to be construed as an endorsement of the compounds or of any claims made for them.

If any change is made in the labeling information or formulation, the authorization for use in official plants becomes void immediately.

Sincerely,

John M. Damaré, Chief
Product Safety Branch
Food Ingredient Assessment Division
